OSCEOLA COUNTY GROWERS TO PLANT MORE STRAWBERRIES

Association Is Working Harmoniously For a Larger Acreage of Luscious Winter Crop

The Osceola County Growers' Association are determined to do their share of developing the fertile lands in this section, and among other things they are doing, have started a movement to increase the acreage of strawberries for next season.

Around St. Cloud some of the finest strawberries that go to any market are produced, and those at a season of the year when there are no such fruits growing in any other State. Usually there is a plentiful supply ready by Thanksgiving Day.

A session of the Osceola County Growers' Association was held in Kissimmee last Saturday, when the following acreages were reported for this season:

J. C. Tison	1/2 acre
Mr. Babcock	1/2 acre
W. H. Anderson	1/2 acre
Mr. Hansell	1/2 acre
L. P. Stevens	1/2 acre
Mr. Heel	1/2 acre
A. Dietz	1/2 acre
Mr. Miton	1/2 acre
S. L. Kinsner	1/2 acre
Mr. Holcomb	1/2 acre
W. H. Wilson	1/2 acre
Miss Bickeryke	1/2 acre
Clark Howell	1/2 acre
R. D. Frankford	1/2 acre
J. H. McCartney	1/2 acre
P. Biesner	1/2 acre
M. L. Schriefels	1/2 acre
W. E. George	1/2 acre
D. O. Morton	1/2 acre
J. F. Niswonger	1/2 acre
S. T. Fansler	1/2 acre

CAME HOME TO GET COOL.

J. W. Meek returned to his home on Missouri Avenue Thursday of last week, after spending two months in Pennsylvania and Ohio. His first statement about the trip was that he was indeed glad to get back to St. Cloud and get cool. He stated the weather in the North was much warmer than here and that he could hardly sleep at night for the heat.

While visiting in Pennsylvania, Mr. Meek attended the wedding of one of his sons, and was also present at the hundredth anniversary of the State of Indiana while visiting another son who lives in that State. He never failed to put in a boost for St. Cloud among the people he met while on his visit, and stated he believed we would have a large number of newcomers this winter.

Mr. and Mrs. Stephen M. Hunt returned home Wednesday from Asheville, N. C., where the spent several months visiting. They were located in a region where, only half a mile away, persons lost their lives by the score in the recent floods in that State, and expressed themselves as certainly glad to get back to their home in St. Cloud. And St. Cloud is glad to welcome them home.

Mrs. Angeline Mann, sister of Comrade Cooke, and Mrs. Dollie Thompson, a niece, arrived in St. Cloud Tuesday evening from Modesto, Cal., and will spend a few days in the city visiting. They are making an excursion from their California home around the United States, having arrived by the southern route and will return via the eastern and northern route.

St. Cloud Lodge No. 66, I. O. O. F., met Tuesday evening for the purpose of selecting representatives to go over to Kissimmee tomorrow evening to attend the district meeting. Those desiring to attend should report to either of the following gentlemen, who compose the committee to provide transportation to and from Kissimmee: Richard Barrs, J. H. DeGraw, Anson McGill. Rebekah members are also expected to be represented and should report to the committee members. The meeting will commence by at four o'clock in the afternoon—Friday.

J. Lester 2 acres
H. C. Avant 2 acres
Tom Hughey 1/2 acre
John Fines 1 acre
The meeting was called by President S. T. Fansler, president of the Kissimmee Produce Growers, who presided. Mr. Fansler explained the purpose of the meeting to the 25 growers who were present and stated that if twenty or thirty acres could be pledged and planted it was possible to bring buyers to Kissimmee and sell the berries F. O. B. He impressed upon the growers that it would be necessary for them to keep their crops in good condition and to give close attention to the culture of the plants if success were to be attained.

"It takes work to make a success of strawberries," said Mr. Fansler, "and if you are looking for a soft snap, my advice would be to give up the idea of growing berries."

MRS. KENDALLEITER AND J. F. BULLARD HAD A CLOSE CALL

Were Thrown From Buggy When Horse Got Tangled in Rope Stretched Across Street

J. F. Bullard and Mrs. Kendalleiter had a narrow escape from serious injury Monday evening at 7:30 o'clock when they were thrown from a buggy near the corner of Eighth Street and Kentucky Avenue, while driving into the business section of the city.

The horse driven to a buggy by Mr. Bullard became entangled in a rope that had been stretched across the street by another horse that had been tied by the side of the street, and the Bullard horse stopped suddenly, pitching Mr. Bullard over the dashboard and under the horse's feet. The animal then backed the buggy sideways, throwing Mrs. Kendalleiter to the ground, and damaging the buggy, which was completely overturned. Due to the fact that Mr. Bullard's horse was very gentle and stopped as soon as called to, Mr. Bullard escaped with no greater injury than a bruised shoulder, caused from striking the ground, while Mrs. Kendalleiter suffered a sprained ankle.

Mr. Bullard took the horse that caused the accident to the city pound, and the owner called and paid the costs and settled with Mr. Bullard for the damage to the buggy. Mr. Bullard says there has been two or three persons who have violated city ordinances by permitting animals to graze along the streets of the city, and that accidents are likely to occur in the same manner if the practice is not stopped.

MRS. M. BURKE DIED HERE LAST THURSDAY

Mrs. Mellissie Burke passed away August 10th. She was born in Madison County, Kentucky, October 17, 1845, and was married in Crystal Lake, Mich., August 2, 1866, to Mr. J. K. Burke. There are six children left to mourn the departure of a fond and loving mother, the father having preceded her by some years. She was a member of the M. E. Church in good and regular standing. The pastor being absent, the funeral services were conducted by the Rev. J. Malmaker of the Baptist Church, at the Miles undertaking rooms.

MASS MEETING

Whereas the voters of the city of St. Cloud will be called upon to vote on the bonding of the city Tuesday, Sept. 5, 1916, for the installation of a waterworks system, a sewerage plant and the paving of certain streets. In order to give the people an opportunity of obtaining a proper knowledge of the extent, construction, location, etc., there will be a mass meeting held at G. A. R. Hall, Tuesday, Aug. 29, at 2 P. M., where the proposed improvements will be explained in detail, and all information required can be obtained.

J. I. CUMMINGS, Acting Mayor.

CITY BOND ISSUE SHOULD CARRY BY LARGE MAJORITY

Improvements To Be Made Under This Plan Will Place St. Cloud in the Progressive Column

Every property owner in St. Cloud

should vote for the bond issue in the election called for September 5th. The improvements planned under this election will place St. Cloud in the rank where she belongs, with the progressive cities of South Florida, and give to the residents of the city those modern conveniences that are necessary in every city of any size.

The city will construct a waterworks system and sanitary sewer system that will provide for extensions with the growth of the town. The City Commissioners have acted wisely in this matter and have secured estimates as to the probable cost of the improvements to be made, and in this manner have arrived at a sum that will be necessary to complete the work. The system will be constructed to take care of the extensions in future years.

These two improvements, together with the paving of streets proposed in the bond issue, will be a step forward for St. Cloud that will do more to develop the city than anything done since the beginning of the Wonder City.

Vote for the bonds on September 5.

SHIPS BABY ALLIGATORS TO IOWA FAIR TODAY

A shipment of 250 baby alligators goes forward from St. Cloud today, being a collection of "souvenirs" from the stock of Mr. A. G. Durham, who deals in Florida curios. The lot of little fellows have become very tame since the collection started some weeks ago and present an amusing sight when Mr. Durham gives them their weekly meals.

This shipment goes to Des Moines, Iowa, where they will be shown at the State fair.

DISTRICT MEETING ODD FELLOWS FRIDAY EVENING

Five Cities Will Be Represented at Kissimmee Tomorrow in Joint Session.

The District meeting of the Independent Order of Odd Fellows, embracing Osceola, Orange, Seminole and Lake Counties, will be held at Kissimmee, beginning at 4 o'clock tomorrow afternoon. Delegates from Orlando, Sanford, Eustis and St. Cloud will join with the members of Osceola Lodge No. 70 for a session at which work in the first degree will be conferred.

The Rebekahs will join with the members of the lodges in preparation of the entertainment for the visitors. It is expected that several delegates will go from St. Cloud tomorrow afternoon.

Mr. Paschal Strode and Mrs. Strode expect to leave here next Saturday to visit their son at Green Cove Springs, this State. Mr. Strode junior is president of the Southern Cattle Feeding Company of Clay County. This company is operating 60,000 acres of land, with a capital of \$1,500,000.

National Encampment Grand Army of the Republic Meets in Kansas City August 28.

The editor of the St. Cloud Tribune is in receipt of a letter from Comrade August Breunert, of Kansas City, Mo., requesting us to announce that the National Encampment of the G. A. R. will be held in that city on August 28. Mr. Breunert states he will be glad to meet every member of L. L. Mitchell Post at the headquarters of the Ferragut-Thomas Post, in the Young Men's Republican Club rooms, 1121 Grand Avenue, to welcome them to their service.

Comrades who expect to attend the next G. A. R. meeting will bear in mind that Comrade Breunert will prove himself a royal host, and visit the headquarters referred to when they arrive in Kansas City.

ST. CLOUD'S POSSIBILITIES DESCRIBED BY GLOBE TROTTER

Reminded of His Pleasant Visit by Copy of St. Cloud Tribune, Writes of His Interest in Florida

Honolulu, T. H., July 27, 1916.

Editor St. Cloud Tribune, St. Cloud, Florida.

Dear Sir and Friend:

I have received today a copy of the St. Cloud Tribune, which you were so kind to send to me. It did much to refresh my memory of the very pleasant days spent in St. Cloud this past winter.

I don't pretend to be a globe trotter, although I have been around quite a bit, having travelled through 32 States, the most of British America, and then across quite a bit of the briny deep. This is all preliminary to what I am about to say of Florida. I think it must have been about the time, when as a high school kid, I was studying United States history, that I first became interested in Florida. That "Magical Fountain of Youth" which Ponce De Leon sought for, but did not find in Florida, al-

ways wonderfully impressed me. I was told that such a fountain never existed, but since going to Florida I know better. Didn't my dear old daddy walk me off my legs going from St. Cloud to Runnymede and back, scolding to rest? Didn't he tell me he felt as young and active as he had felt twenty years before?

I never lost my childish interest in the fanciful pictures of this seeming fairyland, but resolved to see it for myself some day. In 1909 my interest was renewed and I purchased a little farm and a couple of town lots down on the southern part of the East Coast that year, but it was not until the morning of the 8th of November, 1915, that my eyes beheld the land of my dreams. I think, had I not been already pretty well prepared for what I was about to see, I might have been disappointed. To one reared on the fertile prairies of Iowa in an age when pioneering was a thing of the past, it requires a fertile imagination or prophetic vision to picture things, not as they are, but as in time they will be. Chicago lay in ashes, a most dismal sight, when that great merchant, Marshall Field, walking amid the smoking ruins, saw a vision of a greater Chicago and bought heavily of that devastated region. I have since talked with men who lived in Chicago in those days, who have told me how much they might have been worth had they invested in real estate then, and they had the money to do it with then, too. These men today are what they were then, men who hesitated and lost.

Unless a man is gifted with a rational imagination, or as some might call it, foresight, he will not see much to enthrall him within Florida as he gazes out of the car windows while travelling up and down or across the State. A few words apparently tells all. Blue skies, level landscape, pines and stumps, sand, palmettoes everywhere, now and then a turpentine still, or a sawmill, dilapidated, old tumble-down houses which seem to be the landmark of ante-bellum days, broad tortuous, sluggish streams, silvery sheeted lakes, and over all and always to be seen from three to a dozen turkey buzzards circling and circling the whole day long. A desolate country, one might say, if they knew no more. However, now and anon as a sunburst from behind dull gray clouds, one breaks in upon a scene where the hand of man has worked with the hand of the Creator and the transformation is truly marvelous. Who can look upon a grove of golden oranges or grapefruit without an inspiration of prophetic vision? We read the future by the history of

METHODISTS TURN BAPTISTS ASSISTED BY WORK OF NATURE

Picnickers Have Great Trip to Wildwood Grove, But Rain "Baptised" Them All

It isn't often that a Methodist Sunday School and Church crowd go out for a time and turn out Baptists or "River Brethren," but if reports be true, it so occurred last Thursday. At least, they went beyond the "sprinkling" line and accepted very gracefully the "pouring," if not the "dip" and "plunge" process.

About one hundred or more were ticked across the lake on the beautiful boat, "Maud," under management of Capt. Cope and Engineer Comstock. It was found that there were too many for one load and the boat eventually made three round trips. The second round trip took a few who found it was going to make the stay too late and so remained on the boat and returned without getting off, among them was the Rev. and Mrs. Brown, "Mother" Cass, and Comrade Ashton; but unfortunately crossed back in mid storm, "and the waves were from six to ten feet high," but Comrade Ashton does not credit the "whooping up Jonah" to the rough sea, but thinks he ate too much.

It began to rain by the time the first on the ground of the Wildwood Grove had finished the dinner hour, and while the second crew were enjoying the basket luxuries, and they "hiked" to the "ample shelter" at the tables under the shed. Soon it was pouring, then it rained some, and then poured some more and then some. By this time the crowd was standing up to sing, or to keep their seats from getting wet. The roof seemed to forget what it was for, and the umbrellas were resorted to, and this was interesting, the one in the center of his or her "bumbarsal" was all right, for it only sprinkled through, but the next fellow got it "in the neck" and down his back.

Haven't heard of but one not well soaked. Miss Woods said she had no umbrella and so fared the best. The white pants and shirts fellows began to look for a warmer corner, and women without wraps began to feel the need, and soon a couple of bon-fires were started, and one side could dry while the other side of 'em (Continued on page 4)

SOUTHPORT RANCH SHIPS 25 CAR LOADS STEERS

Twenty-five car loads of Florida steers have just been shipped from Southport Ranch, in which W. M. Davis and H. L. Beeman of Orlando are heavily interested.

The cattle were consigned to H. G. Helms of Houston, Tex. They will be placed on the ranch of Elam and Helms, located about twenty miles northwest of Houston.

The Southport Cattle Company has made several heavy shipments of cattle to the West. The ranch is located south of Kissimmee and is considered one of the best in Florida.

The Editor of the St. Cloud Tribune invites contributions to the farm page, which we publish every other week. We desire to add local stories to the news sent us by the Department of Agriculture. Every farmer can help his neighbor in this way.

FLORIDA

(As seen by Barton W. Currie in Country Gentleman.)

Fresh, virile blood has been infused into every artery and vein of the peninsula. It has flowed in from adjoining Southern States, from the North and West. It brought millions to invest, even when Cracker opposition to progress was a political factor. It is bringing many more millions to invest as the progressive element cinches control.

Florida has lead the procession of all the Southern States on the score of phenomenal growth, and the book value of her climate is the primal cause. Of course the climate is not responsible for her rich deposits of phosphate rock, nor her immensely valuable fisheries, but when you add her climate to her 1,273 miles of palm-fringed coast line, her splendid harbors and bays and her short-cut trade routes to the Panama Canal, you have a pretty sure footing for your optimism.

There was a time when it was rather the custom to refer sneeringly to Florida as "that swampy sand-pit winter resort that juts out into the Gulf of Mexico." There was St. Augustine, the oldest city in America, and the rather romantic St. Johns

River, where you could fish for salmon, or shoot alligators, if you happened to be a sportsman.

Tampa was a one-man town, built as an experiment, and Key West had possibilities if it ever got a railroad. pineapples, sapodillas, citron, bananas of a sort, avocado pears, plums, peaches, grapes, kumquats, loquats, figs, mangoes, rice, sugar cane, cotton, arrowroot, tobacco, indigo, siala hemp, New Zealand flax, corn, oats, and a variety of other things, only there was no way to transport them out and market them at a profit—at least not on a considerable scale.

There were yellow fever, the hook worm, and the alligator to contend with, not to mention the old school Florida Cracker, who regarded any sort of a stranger with the same favor he bestowed upon a scorpion.

Florida thirty years ago and Florida today offer almost as surprising a contrast as Southern California of the two periods, and the Peninsular State's present-day growth is very likely to surpass the growth of that Pacific Coast region. She certainly has immensely cheaper land to offer to the homeseeker and has not begun to draw so heavily upon the future for the support of speculative values.

ADVERTISE IN THE TRIBUNE

N. W. BEAUCHAMP LAUDS ST. CLOUD TO THE SKIES

The following is from the pen of N. W. Beauchamp, one of St. Cloud's most satisfied residents, who always has something good to say of the Wonder City, through the columns of the North Manchester (Ind.) Journal:

St. Cloud, Fla., July 21, '16.
Journal Friends:

Enclosed find the "substantial" for conveying the Journal to our Florida home. We have been severed from the newsy relations from there for a time and feel as though we want to keep in touch with the old home and people. It is quite warm here now, sitting up to 96 several days just past, but the usual breeze breaks the monotony no little most of the time, and, according to press reports, presume we do not feel the oppression as much as in the North, our first summer, and we are getting the initiative. For about two weeks a good rain each afternoon, which, we are told, is a commonality here in summer, made it most lovely and cooling as well.

Many of the comrades have been back in their Northern and Eastern homes, presume several in your city, including Comrade and Comradess John Bowers. Yet the Post still has a goodly attendance and the Veterans' Association is well attended, though not the crowded hall as last winter, or rather time for winter, for you know here December is as pleasant as May.

Some 60 of us were over the lovely waters of the Tohopekaliga (Sleeping Tiger) week or so since, the occasion of the Ladies' Aid of the M. E. Church. This fine structure will have a new addition of \$2,500 in time for the annual conference to be held in January. This lake is one of the attractive features of the vicinity and Capt. D. C. Cope has just launched a beautiful steamer, "Maud," for the transfer of pleasure-seekers and picnic parties across the seven miles of clear water to an immensely dense grove, which he is fitting up with modern conveniences and accommodations for the hundreds that hunt this resort.

Another very attractive feature of

St. Cloud is Mr. Decker's bathing, fishing and boating station on the lake front and where the steamer "Maud" starts and lands.

Last Tuesday my Sunday School class of "Yoke Fellows" boys and "The Golden Rule Girls," a fine lot of young folks, the latter class taught by Mrs. Northrup, the pastor's wife. A fine time was enjoyed by the bunch, with Mrs. B. and myself to look after the young folks, Mrs. Northrup being absent on a vacation with the pastor, and which also lets me in for two or three Sabbaths trying to help feed his flock. Rev. Northrup is a splendid man, able preacher and has five boys from 12 to 21, as fine specimens of paragonage products as we have come up against for many years, and we are glad to have two of them in the above class. Three of the boys are just home from college. One, Paul, will teach in the high school here this term.

The district superintendent, who resides at Jacksonville, a scholar, and an excellent manager of the district, which is no small territory. For the benefit of the church improvement he gave his popular stereopticon lecture Saturday last for the "Barracca" boys, another Sunday School class older than my own class, his lecture being, "The Wandering Gentile." With his own taken pictures from all parts of the globe, almost, some of which being associate with our present Bible study lessons.

One of our Sunday School classes superintended by the Rev. J. B. Santee, also a comrade, has an enrolled membership of 100, largely from the comrade boys and their wives. The school reaches about 300 in the "busy" times, while at a recent sacramental occasion there were near 300 communed.

There are eight other churches in the city, mostly well managed and pastored, among the better buildings are the Baptist, Presbyterian, Christian Science, and two colored churches just adjoining the town.

The town is still building up. Two business firms are erecting large new buildings—one the Novelty Works, four blocks east of our home, which is 521 South Florida Avenue, the prominent street, fronting the lake, so we are only about five blocks from the postoffice and business center.

This is a fine climate sure, and the people seem to enjoy more than the average good health in general, was talking to a comrade on the street yesterday, in his eighty-eighth year, cheerful, spry and enjoyed his hearing and eyesight up to date, and by his side was one well shot up, Civil War wound through his hip and one hand partly gone, he is 83, and several of like age are gardening on their home places.

The St. Cloud Tribune, at present under the management of William C. King, with an adequate force, is one of the substantial promoters of St. Cloud. Among the help is Mr. Philpott, whom we may style a Hoosier, a mute printer, and with his estimable wife and family are among the desirable citizens, a practical and all-round printer.

This is one of the socially touched cities of the Southland and has many fine men in business, some of them among the boys, and one of the features of the place is the time to be friendly and social. In like manner the churches give a friendly welcome to strangers and all.

But I had no idea of writing, more than ordering the Journal, so will close, as you will have no time to peruse this anyhow, though from the Smith-Premier will not be so impossible as if by my pen, for along the 70s and early '80s, with Howard Coe, Frank Crill and Lloyd Hopkins, it was a job of head-scratching to decipher the editor's productions in your city and on the old Journal as the scribe.

With best regards to the management, and many old friends, yet lingering on the lower edge of time in the old homelace, I am,

Very truly yours,
N. W. Beauchamp.

FLORIDA'S AMAZING PRODUCTIVITY

Since September of last year—less than ten months—there have been shipped from Florida 42,119 solid car loads of vegetables and fruits, not counting the immense quantities shipped by express, shipments of less than car lots, or by steamer from Jacksonville, Miami, Key West, Fernandina, and other ports. This made 1,404 train loads of thirty cars each, or about six solid train loads for every working day. Among the products shipped were:

Grape fruit, 5,597 car loads.
Oranges, 17,824 car loads.
Mixed vegetables, 2,811 carloads.

GEN. DAVID GREGG HAS PASSED AWAY

Last of Union Officers of His Rank Who Fought at Gettysburg

Gen. David McMurtrei Gregg, former Auditor-General of the State of Pennsylvania and the last of the Union officers ranking as general who fought at Gettysburg, died at Reading, Pa., August 7th. He was a native of Huntington, Pa., and was 83 years old. He was educated at West Point and saw service on the frontier before the civil war.

In 1874 General Gregg was appointed consul to Prague, Bohemia. For eighteen years he was Pennsylvania's Department Commander, Military Order of the Loyal Legion, and later served as Commander-in-chief.

HE LEFT US A WORD.

There lived once in France a soldier, Nicholas Chauvin, who was so demonstrative in his patriotic fervor that he made a fool of himself, and ever since his day a man who displays a cocky and hysterical patriotism is called a chauvinist. In England such a man is called a jingo, says the Christian Herald. A jingo is always bragging about his country's preparedness to fight. In Germany this form of patriotism is known as Pangermanism; in Russia it is called Pan Slavism, and in the United States it is labelled "spread-eagleism." The only patriotism which some men seem capable of exhibiting is a contempt for other nations and a glorification of their own. Let us agree that all such patriotism is dangerous as well as silly, and let us face the problem of cultivating in the American people a patriotism which is rational and Christian.

MRS. BALL AGAINST FLAG DESECRATION

She Spoke Before the Window
Dressers at Meeting
in Chicago

"How to Prevent Desecration of the Flag and Yet Make the Full Use of It in the Windows of Great Dry Goods Emporiums" was recently the subject of an address by Mrs. Isabel Worrell Ball before the International Association of Window Dressers at Chicago.

Mrs. Ball says that window dressers, in their desire to do honor to the flag, are probably the greatest offenders in putting it to humiliating use by spreading it upon the floor of the window and piling various articles of merchandise upon it. It is very often used for a saddle blanket, she says, and is even twisted around the handle of a riding stick. "In fact, there are some 400 ways in which the flag has been used by window dressers, with the result of positively humiliating the emblem of a great nation like the United States," she asserts.

Mrs. Ball, who is associate editor of the National Tribune, is well known in St. Cloud.

FORGOTTEN TREASURES.

It is a strange story, that reads more like a romance than cold fact, how the most intimate thoughts and emotions of two thousand and more years ago lay buried in the rubbish of ancient cities to come to light in our day, says The Christian Herald. Papyrus was the writing material of ancient Egypt, used in official and private correspondence, in business transactions, in legal actions. When it had served its purpose it was thrown away. Much of it also was used to wind the embalmed bodies of the dead. Fragments of it passed westward in the early part of the last century without attracting much attention. The scholars of those days were interested in classical lore and literary remains, and could not foresee the infinite possibilities for study-

ing the life of a past age from its private correspondence.

Within the last decades, however, interest changed completely. Exploration parties were sent out to go over every inch of ground and gather the remains. A host of scholars set themselves the task of deciphering and interpreting the documents. But still an immense amount of material is stored away in Oxford, the British Museum, Berlin, Paris and other places.

FLAG MADE FROM SHIRTS.

A valuable relic of the Civil War will be added to the collection in the State museum at Augusta, Me., in the form of a flag made from the shirts of the soldiers and sailors held as prisoners of war at Salisbury, N. C., in 1862. The relic is the gift of Judge G. B. Kenniston of Boothbay Harbor, Me., who was one of the prisoners.

COUNTIES GRANT SCHOLARSHIPS TO UNIVERSITY

Several counties granted scholarships to the University of Florida last year. This was a result of the bill passed by the last State Legislature which authorized the Commissioners of each county to make appropriations for sending one student from that county to the College of Agriculture. One county granted the scholarship last year, but there were no applicants for it. It is offered again this year.

The aim of the Legislature in authorizing these appropriations was to give some worthy student from each county an opportunity to obtain an education. The scholarships amount to board and lodging at the regular dormitory rate charged other University students. The only restrictions are that the student shall enter the College of Agriculture and pledge himself to engage in some agricultural pursuit after graduation. Awards are made by competitive examination to be held by the Commissioners or under their direction.

Students who wish to take the examination for these scholarships should make preparations at once, because the meetings of the Commissioners before the University opens are limited and it may take some time to make the necessary arrangements. Further information may be had by application to the County Commissioners or to P. H. Rolfs, Dean of the College of Agriculture, Gainesville.

COMRADE BAMBERGER TELLS OF SONS' RESPONSIBILITIES

New Cumberland, Pa.,
August 8, 1916.

Dear Comrades at St. Cloud and
Elsewhere:

More than fifty years ago we marched together with our fellow comrades during the Civil War, tired and sometimes footsore from our heavy marches by day and by night, facing the enemy on every side, striving for that victory which we finally won, for which tens of thousands of our comrades fell on battlefields from '61 to '65. Many of them are sleeping in unknown graves, while others more fortunate than they have markers to show their last resting places. They, as well as we, answered to the bugle call which seemed to say to us like this: Shoulder your knapsacks and jog along slow; I know you are tired, but yet you must go. Then into the thickest of the battle fray these brave men went and the sad news of their death to loved at home were sent. Oh, how sad, how very sad, indeed, the news must have been to fathers, mothers, sisters, brothers, wives and children of these fallen comrades.

At this late day I imagine I can yet hear thousands of widows weeping and see their little sons and daughters gather around them, looking up into their faces, saying, "Mamma, what are you crying for?" and I hear the answer coming back to their little tots, saying, "Your dear papa was killed in battle; you will never have your dear papa any more." Oh, how sad it must have been!

But notwithstanding all this sadness and sorrow at home and the loss of our many comrades on battlefields, we still sang, "Tramp, tramp, tramp, the boys are marching, cheer up comrades and be gay, and beneath the Starry Flag we shall breathe the air again of the free land in our own beloved home."

Again, many of our comrades were captured by the enemy and placed in prison pens, who became living skeletons, begging for something to eat and drink, but sad to say, their begging was all in vain, for many of them died of starvation. I never was a prisoner of war, but I imagine I can yet see these poor comrades sitting in prison pens and hear them utter words like these:

"In the prison cell I sit thinking, mother dear, of you,
And our bright and happy home so far away;
And the tears they fill my eyes, in spite of all I can do,
Tho' I try to cheer my comrades and be gay."

Since our return from the war, teeming thousands of our comrades have been laid away to rest in the various burying grounds throughout this land, but still there are some here and there who yet survive them, but we are growing aged and shaky, that firm and steady step we used to have is becoming more infirm as time goes on, and we, too, must soon pass out.

I have often thought if I should be the last surviving veteran of the community in which I live, I would feel very sad and lonely, and I would be constrained to place my hand upon the headstone of a sleeping comrade and quietly utter words like these:

"I am lonely since my comrades died,
Though friends and kindred gather near,
I cannot check the rising sigh,
Nor stay the silent heart-felt tear.
If I could call them back again
And kneel once more down by their side,

I would love them better than before,
I am lonely since my comrades died."

Comrades, it will not be long at the very longest, when the last veteran of the Civil War will be conveyed to his last resting place. Just when this will be we shall never know, but we hope the sons of veterans whose duty it will be, will bear his body to the grave. We further hope after we have all passed out, the Sons of Veterans will each year as Decoration Day draws near, prepare themselves with flags and on that day—the 30th of May—in squads visit the various burying grounds in which the veterans will be lying throughout this land, and place flags and flowers upon their graves, who so nobly defended their country and flag. Not because we will hear the sound of their footsteps as they go about placing flags and flowers upon our graves. No, our ears will be deaf to the sound, our eyes sightless, our body lifeless—our thoughts will have perished, and

we'll know not anything; but it is now, while we are yet living, that we want the Sons of Veterans to assure us they will do these things after we are gone, and thus they will revive our spirits within us in our declining years.

Alfred P. Bamberger,
Private Company C, One Hundred
and Ninety-second Regiment, Penn-
sylvania Volunteer Infantry.

OUR WEAKNESS AND DANGER.

One hundred years ago the world's output of copper was only about 2,500 tons per annum. Today the United States alone produces over 500,000 tons each year. One hundred years ago the world produced between two and three million tons of iron per annum. The United States alone now produces over twenty-six million tons per annum. One hundred years ago the world produced about fifty million tons of coal per annum. The United States now produces about 550,000,000 tons per annum.

Attention is called to these figures not as evidence of strength, but of weakness and danger, says William L. Saunders in The Engineering Magazine. How long can the United States continue to supply these raw materials which may be called the sinews of prosperity in peace and of strength in war? For we must not forget that in coal, iron, copper and other metals America leads the world.

SALT WATER BEST.

Largely Used in Treatment of
Wounds in Europe.

Surgical dressings, says the London Lancet, are now things of the past. Wounded soldiers in military hospitals are being treated by "saline irrigation," as the doctors call it, recently invented by Sir Almroth Wright.

This saline irrigation consists of a solution of warm water with from 5 to 10 per cent of salt in it. It can be kept at a normal standard of warmth in an ordinary Thermos flask, suspended above the bed with a rubber tube conveying the fluid to a small glass tube.

Thus the new means of wound-healing. Here is what a doctor has to say on its application.

The officer in question, who has been treating the wounded blue-jackets from the battle of Jutland, told the writer: "We on no account apply a dressing. Surgical dressings—lint, bandage and wool—are not being used except, of course, during the transportation of a wounded soldier from the field of battle, when his wound must be covered up in the old way with lint and antiseptics.

"Take, for instance, the case I have here of a soldier who has a severe shrapnel wound on the knee. You see that while the bedclothes are arranged in the usual way over the upper part of his body, a sort of 'cradle' is formed over the lower part, so as to keep the wound quite clear from any possibility of contact with the coverings. Here the salt water is trickling down all the time, drop by drop, from the glass tube onto the wound, running day and night without intermission and carrying off the poison from the wound and helping to cleanse and heal it."

The "saline irrigation" undertakes to clean up and heal most septic wounds in three or four days. The salt penetrates the seat of the poisoning and carries it off.

Sir Almroth Wright says of it: "The salt draws out from the infected tissues the lymph which has spent all its power of resistance to the poisonous bacteria, while it draws into the tissue from the blood stream the lymph which is the enemy of the microbe."

On the other hand Sir Almroth argues that the ordinary dressing inclines to become a barrier to the free discharge of lymph from the wound, though it is contrary to truth to say that nurses allow dressings to stick and cause bleeding on removal.

"As regards burns," the doctor concluded, "the French have discovered a most efficacious method of spraying severe burnings with paraffin."

THE LURE OF FLORIDA

Florida's climate has been praised so much and for so long as the State's chief asset that many have the impression that Florida is all climate, with not much else to recommend it. This is a disadvantage to be found in constantly pushing climate to the fore, says the Orlando Reporter-Star.

We are ready to admit that the climate forms the basic entablature for nearly, if not all of Florida's advantages and products. If it were not for the climate we could not produce the world winning fruits and vegetables that are matured out of season for other sections. The health of the people would not be so rosy and robust if it were not for the climate. Florida would not be the most delightful State in which to live all the year if it were not for the equitable character of the climate—hence, undoubtedly, the climate is Florida's main asset. But we would like to see the advertising writers get a new angle on the subject and not make it appear that climate is our sole commodity and attraction.

Let it be known that climate is free to all who will come and share it. Our climate is Nature's blessing, but we have also the most productive land in the world; the richest mines, and a principality whose domain has hardly been explored. It is a territory of hidden wealth, affording opportunities more varied than any other territory in the world. The climate is the background for all our claims and assertions, but let us keep it in the background to lend setting and color to the more alluring bids for investment which we are warranted in making.

Fortunes lie buried in Florida soil without the necessity of digging deep to realize them. Men have braved the dangers and hardships of the Arctic region for gold; they have burrowed thousands of feet through rock for paying ore; they have lived hermits' lives and sacrificed the comforts and delights of civilization for the chance to grasp the glittering edge of an envied competency. Yet Florida has more to allure and assure the earnest and ambitious than the gold-bearing hills of Klondike or the oil-gushing lands of Mexico.

Come to Florida, the climate's fine, but we've something more tempting to offer, something more substantial to sustain and something more diverting to make life interesting and smooth the wrinkles out of age.

A SHREWD GUESS.

According to Les Annales de Paris, a poem writes home from the trenches as follows: "You ask me if I need socks. I am still wearing the pair you sent me last July. I have not seen them since, but I presume they are in bad shape."

ST. CLOUD TRIBUNE

Published Every Thursday by St. Cloud Tribune Company

Entered as Second-class Mail Matter, April 28, 1910, at the Postoffice at St. Cloud, Florida, under the Act of Congress of March 3, 1879.

The Tribune is published every Thursday and mailed to any part of the United States, postage free, for \$1.50 a year, 75c six months, or 50c three months—strictly in advance.

Reading notices in local column 10 cents a line. Rates for display advertising furnished on application.

Advertising bills are payable on the first of each month. Parties not known to us will be required to pay in advance.

Important Notice!

In sending in your subscription, always state whether renewal or new subscriber.

In renewing from another postoffice, give former address.

In changing your address, be sure and give former address.

SUBSCRIPTION, PAYABLE IN ADVANCE, \$1.50 A YEAR

PLANT TREES ON COUNTY ROAD

While good roads are planned in every direction throughout Osceola County, it would be a wise move on the part of the County Commissioners to plant some substantial shade trees along each road as improved. The trees, aside from adding to the beauty of the drives along the roads, also aid in keeping the roads in good condition. It has been proven in other sections, where trees were planted along the roads, that they require less attention than is necessary to roads exposed to the sun at all times.

Knowing the members of the Board of County Commissioners to be progressive men, interested in the welfare of the county, we believe they will act upon this suggestion at some time in the very near future. It might not be out of place, however, for the taxpayers that are interested in this kind of development to express their views for publication. We shall be glad to print letters from our readers on this subject.

While the work is suggested along the county roads, it would also be proper for the City Commissioners of St. Cloud to look into the matter of planting trees along Tenth Street, joining the county road at either end of the city. This would make a continuous shaded drive through the county east and west, along the road that is to be brick and sand asphalt at some time in the near future.

In the city many property owners have already taken up this matter of planting trees, and are to be commended for their public spirit. It might be wise for the City Commissioners to urge all property owners to plant trees, and assist in every manner possible under the charter in securing uniform tree planting throughout the city. Let us hear from you on this matter.

WHY NOT SPEEDWAY AROUND THE LAKE?

It has been called to the attention of the Editor of The Tribune the fact that East Lake Tohopekaliga affords a beautiful location for an automobile speedway. The lake is about 28 miles around the beach, with out 26 places that would require filling or bridging and can be made one of the best speedways in the United States.

With a speedway for winter auto races thousands of people could be brought to this section for the annual events that would be scheduled on such a track. What Northern cities have accomplished in this respect is well known to many of our readers, but there is no place in the State where a better speedway can be constructed than around the lake at St. Cloud.

This matter should be taken up by the Board of Trade and the County Commissioners appealed to for co-operation. The cost of constructing a speedway here would be far less than at other points and the benefit to St. Cloud and Osceola County from such an attraction to tourists and winter visitors cannot be correctly estimated. It is an opportunity for the progressive citizens in this section to add to the many features that attract new settlers and tourists and should not be overlooked.

The Florida Grower did St. Cloud an injustice in their last issue, evidently through negligence, which we believe they will readily correct. In referring to a letter published in The Tribune of the 3rd, which came to this office from Ohio, telling of a brick road that blew up from heat, the editor of the Grower stated the road that exploded was just east of St. Cloud, in Osceola County. The road was in Ohio. It never gets hot enough to blow things up in St. Cloud.

at any season of the year. And there is no brick road even contemplated east of St. Cloud. The road leading to the East Coast from this city will be constructed from sand-asphalt, bonds having been voted some time ago for this purpose.

The Street Commissioner of the City of St. Cloud, as well as the entire Board of City Commissioners deserve the praise of the taxpayers for the manner in which they are cleaning up the city. Acting under advice of the Street Commissioner, property owners are busy clearing palmetto and weeds from hundreds of lots in the outlying parts of the city. The vacant lots elsewhere are being cleared of all objectionable growth and the city will present a pleasing appearance to the new visitors coming this season. Let the good work continue. Nothing helps a town more than to have every vacant lot kept clean—and it adds to the healthfulness of the town as well.

There is to be a mass meeting of the citizens of St. Cloud on the 29th in order to have a full and free discussion of the bond issue for waterworks, sewers and other improvements. The bond issue should carry, and the city will soon operate its own waterworks and have a sewerage system that will be a credit to any town the size of St. Cloud. We believe no one will oppose the bond issue who understands the benefits to be derived to the city from the improvements. Attend the meeting and get full information.

The Editor of The Tribune is favored with many letters from subscribers in the Northern States in which it is stated, "We will be with you in St. Cloud soon." There are so many good things that could be said about this section that we might devote the whole paper to boosting articles each week, and exclude all the news of the community. But the best way to verify the things said about St. Cloud is to come and live in this city of homes for a season.

People who left St. Cloud in the spring are daily returning to the city, and the universal expression heard from these new arrivals is that St. Cloud is cooler than any city in the North, where it had been expected to find a pleasant summer. Our nights are always cool, and even though the thermometer climbs around ninety some days, there is a cool breeze to counteract the heat from morning until night.

There is just one thing that makes Tampa go ahead faster than Jacksonville—that Tampa Spirit. When they start anything they pull together in Tampa. Their industrial activity, renewed recently by the live wires of the Rotary Club, has paved the way to greater development.

ST. CLOUD'S POSSIBILITIES DESCRIBED BY GLOBE TROTTER

(Continued from page 1.)

the past, but Florida, agriculturally, has no past to judge it by. We can only judge of its possibilities by its comparatively recent achievements. In the eyes of the nation Florida is passing through the experiment era of its existence. Great problems have yet to be met and solved, but enough has already been accomplished to give even the most conservative man a most hopeful outlook upon the great things that we expect of Florida in the future. It seems that everything that will grow anywhere will grow in Florida to perfection. The minimum of effort seems to be rewarded

with the maximum of results. Every tropical fruit that grows in Hawaii seems to thrive equally well in Florida. I have travelled along the whole East Coast of Florida, across the whole northern boundary, and up one way and down another, and to and from the center of the State, and except for the West Coast, I have seen the most of Florida. To say which is the best part of Florida would be hard for me to do, as much depends upon what line of farming one wishes to pursue.

I should say that St. Cloud lies in very near the center of the best citrus district of the State. I certainly saw many fine orange and grapefruit groves in and about St. Cloud. There seems to be a very considerable amount of very rich muck soil in the vicinity on which vegetables and fruits of all kinds flourish to perfection.

While in St. Cloud I heard a number of the residents testify as to the wonderfully curative properties of the waters of East Lake Tohopekaliga. I have heard of eczema and rheumatism being cured by drinking and bathing in the waters of this lake.

There is one thing, however, that I will say of St. Cloud that distinguishes it and sets it above all other places I have ever been in, and that is the wonderful hospitality of its people. I never was in a more moral or pious community. In no other place that I have visited have the good people made so firm a grasp upon my heart strings as at St. Cloud. Perhaps it is because the spirit of comradeship that is so strong among the old soldiers residing there pervades the whole atmosphere and overflows the bounds of its original environment.

God bless the old soldiers, and may they in this, their new haven of rest, find as I verily believe they will, a foretaste of that final camping ground in the realms above.

With very warm personal regards to you and each of the good people whom I met while in St. Cloud, I am Very sincerely,

Edw. A. Cooper.

METHODISTS TURNED BAPTISTS ASSISTED BY WORK OF NATURE

(Continued from page 1.)

was still absorbing the humidity of the surroundings, but the storm only lasted about two hours, but, say, did you hear 'bout it rainin'?

All in all, the occasion was enjoyed by all, and the experience one had was worth while, after the "hard trials and great tribulations" were ended, and the worry about the trouble that might have been, but never materialized.

Not a few expected to be laid up for the next while to come, but even the most delicate ones were not affected from the exposure, due to this wonderful Florida, and especially St. Cloud climate.

The last trip over, made up largely of young live wire men and women, had the better time as to the amusement, sports and plays. And it is said that this time they got to stay for the "moonlight ride" back, and were ready to land after the boat was sand barred for a time, and lost its course, and two miles from the St. Cloud landing station, when the oil gave out, like the lamps of some virgins spoken of in "the Book," and there rested until some boys with the trail boat paddled to shore and got a new supply of gasoline. Joe Phipps, with his motor boat, helping the matter out by returning with the oil to the "Maud," anchored out in the lake.

The young folks in the motor boat went over and returned without any great danger or hairbreadth escape! Anyhow, all had a good time and will long remember the day, for, like were John was baptizing one time "beyond Jordan," "there was much water there."

As Comrade and Mrs. Goff, and McNew, Burbank and a few others felt like young folks and they remained for the last trip home, but they all got into the city "early in the morning."

The last bunch of picnickers returning home from Wildwood Grove last Thursday had some "shipwreck" experiences, according to report sent to The Tribune office. At first it was reported that the Submarine Bremen had appeared before the steady "man-of-war" Maud, which was conveying the jolly crowd homeward, and decks were cleared for action. Many real heroes were developed, and things were lively aboard the "neutral" ship until it was announced by the sturdy mate that the boat (Maud) was hard aground on a sandbar. After some difficulty it was discovered that an attack from the rear from some friendly sandbar had displaced the rudder and the good ship Maud was adrift. It was the wee sma' hours of Friday morning when the boat finally put into port and landed her list of

LEGAL ADVERTISEMENTS

NOTICE OF APPLICATION FOR LETTERS PATENT AND INCORPORATION TO ALL WHOM IT MAY CONCERN:

NOTICE IS HEREBY GIVEN that the undersigned will apply to the Governor of the State of Florida on the 20th day of September, A. D. 1916, at Tallahassee, Florida, for Letters Patent, incorporating the ST. CLOUD DEVELOPMENT COMPANY under the following proposed Charter, a copy of which has been filed in the office of the Secretary of State, of the State of Florida.

This 16th day of August, A. D. 1916.
ARTHUR E. DONEGAN,
PAT JOHNSTON,
JAMES M. JOHNSTON.

PROPOSED CHARTER OF THE ST. CLOUD DEVELOPMENT COMPANY.

The undersigned hereby associate themselves together for the purpose of becoming incorporated under the Laws of the State of Florida and under the terms of this Proposed Charter.

Article 1. The name of this Corporation shall be the ST. CLOUD DEVELOPMENT COMPANY.

Section 2. Its principal office and principal place of business shall be in the City of St. Cloud, County of Osceola and State of Florida, and its business may be conducted in said City of St. Cloud and elsewhere in the State of Florida and in any other States or Countries, through such other offices, branches, agencies or otherwise, as shall be necessary or convenient.

Article 2. The general nature of the business or businesses to be transacted by the said Company shall be as follows:

(a) To buy, sell, mortgage, rent, improve, exchange and otherwise acquire, dispose of and deal in real property, improved and unimproved; to build, construct, and alter houses or other buildings thereon, and to manage, develop and improve real property generally.

(b) To dig, construct and make drains, sewers, ditches and dikes and to dredge, straighten, widen and deepen natural water courses and to build dikes, ravines and dams and to construct ditches and drains for its own purposes or under contract and where necessary under the direction of public officers or courts for the drainage of certain lands and to do and carry on a general ditching and draining business on its own behalf or under contract received by bids or otherwise.

(c) To carry on the business of dredging in all its various branches. To buy, sell, manufacture, purchase, lease or otherwise acquire, own, maintain and operate docks, scows, lighters, derricks, vessels, steam or otherwise, engines, cars, wagons, tools and personal property, or every class of business convenient or necessary in carrying on the business of dredging.

(d) To prospect, bore, drill for and produce oil and natural gas.

(e) To purchase, lease or otherwise acquire lands believing to contain oil and gas and to erect and maintain thereon and elsewhere pumping and drilling stations, reservoirs, tanks, pipe lines and other facilities and conveniences that may be necessary or required in and about said business.

(f) To issue on commission, subscribe for, acquire, hold, sell, exchange and deal in shares, stocks, bonds, obligations or securities of any public or private corporation, government or municipal.

(g) The Company shall have ex-

passengers safe and sound and none the worse for the delay. A large crowd had attended the Methodist Sunday School picnic at the grove, and due to the rain at noon some delay had been encountered in starting home from the grove, and darkness failed to disclose the sandbar to the pilot of the excursion boat.

WANT ADS

FOR SALE

BEEES FOR SALE—3 colonies in 8-frame 2-story hives and 9 colonies in 1½ story to frame. All combs built straight, mostly on wire. Hives, complete, with bees, \$6.00 each. G. L. Sawyer, St. Cloud, Florida. 48-tf

other businesses, working contracts, undertakings and operations, to obtain and acquire by purchase, or otherwise, all the rights and privileges, exclusive or otherwise, authorities, undertakings or businesses or any right, option or contract, in relation thereto, and to perform and fulfill the terms and conditions thereof, and to carry the same into effect and operate thereunder, develop and turn to account, maintain or sell, and dispose of, and deal with the same.

(p) In general to do and perform any act or acts expedient or necessary to accomplish or further any of the objects or powers herein mentioned, and to exercise any and all other powers which a co-partnership or natural person could do or exercise and which are or may hereafter be authorized or permitted by law, and the enumeration of specific powers recited herein shall in no manner limit, abridge, or detract from the general powers conferred upon corporations by the Laws of the State of Florida.

ARTICLE 3. Section 1. The amount of capital stock of this corporation shall be One Hundred Fifty Thousand Dollars (\$150,000.00), divided into fifteen hundred (1500) shares of the par value of One Hundred Dollars (\$100.00) each, and such stock, including that subscribed for by the subscribing incorporators, may be paid for in currency, or in labor, services, or property at a just valuation, to be fixed by the incorporators, or by the directors, and shall be issued and paid for at such time and upon such terms as the Board of Directors may determine. Said capital stock may be increased from time to time, beyond the amount stated, in the manner provided by law.

ARTICLE 4. Section 1. This Corporation shall exist perpetually, or until dissolved according to law.

ARTICLE 5. Section 1. The business of this corporation, until otherwise provided by the Board of Directors, shall be conducted by a President, Vice-President, and a Secretary and a Treasurer, and a Board of Directors, composed of from three to five members; the exact number of said Board to be fixed by the By-Laws and to be alterable within the limits stated. The office of secretary and the Office of Treasurer may be held by the same person. The Board of Directors may appoint such other officers, or agents as in their judgment may seem wise, and shall prescribe, for such officers such powers as in their discretion seems proper. The annual meeting of this Corporation shall be held on the second Tuesday in the month of March of each year at ten o'clock A. M., at which time all the officers herein provided for shall be elected by the Board of Directors. Until the officers to be elected at the annual meeting for the year A. D. 1917 shall be qualified, the business of the Corporation shall be conducted by the following officers: President, Arthur E. Donegan, Vice President, Pat Johnston, Secretary and Treasurer, James M. Johnston.

ARTICLE 6. Section 1. This corporation shall adopt an appropriate seal and shall adopt By-Laws for the government of its affairs, not inconsistent with its Charter and the Laws of the State of Florida, which By-Laws may be amended, altered, or repealed in the manner provided in said By-Laws.

ARTICLE 7. Section 1. The highest amount of indebtedness to which this Corporation shall at any one time subject itself, shall not exceed double the amount of its capital stock.

ARTICLE 8. Section 1. The names and residents of the subscribing incorporators, together with the amount of capital stock subscribed by each are as follows:

Subscribed by each incorporator personally, in their own handwriting: Arthur E. Donegan, Kissimmee, Florida, One Hundred Shares; Pat Johnston, Kissimmee, Florida, Twenty-Five Shares; James M. Johnston, Kissimmee, Florida, Twenty-Five Shares.

State of Florida,

County of Osceola.
TO ALL WHOM IT MAY CONCERN, BE IT KNOWN, that before me, the undersigned Notary Public, in and for the State of Florida, having an official seal, and duly authorized under the Laws of said State to administer oaths and take acknowledgements, this day personally appeared, ARTHUR E. DONEGAN, PAT JOHNSTON and JAMES M. JOHNSTON, each to me known, and known to me to be the individuals described in and who executed the foregoing proposed Charter, who, having been each severally sworn, upon oath, acknowledged each for himself that he executed the foregoing proposed Charter freely and voluntarily for the uses and purposes therein expressed.

IN WITNESS WHEREOF, I have hereunto set my hand and official seal at Kissimmee City, County of Osceola and State of Florida, on this 16th day of August, A. D. 1916.

G. P. GARRETT,
Notary Public, State of Florida.
My Commission Expires August 17, A. D. 1917.
Johnston & Garrett,
Counsel for Incorporators.

51-4t

NOTICE FOR BIDS.

Bids will be received by the undersigned City Clerk of St. Cloud, Florida, for printing of revised Ordinances of St. Cloud until September 1st, 1916, in accordance with the following specifications, viz.: 200 copies compilation of ordinances, tag board binding, 8 1/2 by 11 type page 6 by 6 1/2 inch point type 6 pound M-P Book, delivery to be made within 30 days after receipt of order. Guaranteed minimum of 100. Submit bid on page page 100. FRED B. KENNEY, City Clerk.

ST. CLOUDLETS

Fire insurance, taxes, A. E. Drought.

S. W. Porter, real estate, insurance.

The Thimble Club will meet with Mrs. Sam Brammer Friday afternoon.

Note change in date for "Hazards of Helen" and "The Selig Tribune." 51-11

Mrs. D. L. Proper of Narcoossee is recovering from a severe attack of grippe.

Mrs. Hanscomb returned from her visit to the North and is improving in health in St. Cloud.

Mrs. M. Veeder and Mrs. Vreeland of Wisconsin Avenue have been visiting in Orlando the past two days.

Mrs. Mollie E. Martin left on Tuesday for Gas, Kansas, where she will remain for some time with relatives.

Miss Marian Harmon, who has been confined to her bed for the past week, is reported much better today.

Mr. J. J. Vreeland, Mrs. Vreeland and Mrs. Veeder spent Sunday evening at the residence of Mrs. S. C. Jacques.

Just received one lot of fancy pel-ble sitting, worth up to 25c special at 10c at Durham's. 51-11

William Kashorn has purchased the Martin Studio on Eleventh Street, near Florida Avenue, and will conduct a photo gallery.

Mr. Bullard is making many improvements on the Christian Church building, repainting the structure and laying cement steps.

When coming or going to or from St. Cloud, don't forget Bailey's Transfer. Auto service: day phone 51; night phone 77. 51-11

Did you know that Uncle Josh was selling his very best linen and eight cents calico for only 5 cents? H. C. Stanford Company. 51-11

The wife of Comrade Scarr is reported much improved this week. She has been under the care of a physician for several weeks.

Notice—"The Selig Tribune" every Thursday. 50-11

Mr. Almon Linderman left on Monday last for Ithaca and other points in New York State. He will be absent for four or five weeks.

W. C. Lennox and wife left for a visit to friends and for a business trip to Illinois last Tuesday. They propose to return about November 1.

287 yards pretty white and ceru curtain net, 36 inches wide—15 cent value for only 9 1/2 cents. While it lasts. H. C. Stanford Company. 51-11

Mrs. P. E. Morgan returned to St. Cloud Tuesday evening of last week after a several weeks visit to Cincinnati, Ohio, and other Northern cities.

Mrs. Nancy Groves of Maryland Avenue had the misfortune to fall and break a rib last Friday. She was attended by a physician and is much improved this week.

Remember Durham sells for less. 51-11

Mrs. Dosanthe Jacques, sister and niece of Lexington, Miss., arrived in St. Cloud last Friday, and have taken up their residence at their home place on Massachusetts Avenue.

Comrade J. H. Davis writes from Clendenin, W. Va.: "The weather is very hot at times, so we will have to come home to cool off. We want to start soon in September if nothing prevents."

Mrs. George William King of Pennsylvania Avenue has announced the marriage of her daughter, Susan Birdle, to Dr. Lurie Darbaker, which occurred on Wednesday, August 9th, at the King home in the city.

Mrs. Guy S. Morgan, who recently arrived here from Portland, Oregon, has purchased the Tyler property on Massachusetts Avenue and Eighth Street as an investment and will repair the building and keep it for rent or for sale.

Children's 59c Middy 35c at Durham's. 51-11

ONE OF THE MOST COMPLETE COUNTRY HOMES IN FLORIDA IS FOR SALE

THIS home lies one mile east of Narcoossee, the terminus of the railroad, and five and a half miles from St. Cloud. This home consists of eleven and three-quarter acres in oranges, grapefruit, tangerines, lemons and kumquats, a dwelling house of six rooms, a tenant house, barn, garage, wagon and buggy house, chicken houses and compost heap. Also fine horse, Jersey cow, chickens, pigeons and three fine hogs, as well as wagon, buggy and all farming tools. The yard surrounding the dwelling is planted to many varieties of flowers and contains eight massive clumps of giant bamboo, two immense magnolia trees, a large mulberry tree, and any number of oleander and crepe myrtle trees. Four splendid wells of water. In front is an oak park, all fenced, that is said to be the prettiest in this section. In fact, those who have seen this home say it is the one place in all this locality.

This home is for sale for **\$12,500** and terms can be made by the purchaser

Any desiring to purchase this home can call on or write

S. J. TRIPLETT

at St. Cloud, Fla., or any real estate agent residing here. 50-21

Messrs. L. B. Willard and Miles J. Willard, sons of Mr. J. W. Willard of Glenolden, Pa., paid us a flying visit on Tuesday last. They were on their way to Sarasota and Tampa. Mr. Miles J. Willard was in town on December 24, 1909, two days after the burning of the Old St. Cloud Hotel and has not been here since. He was much astonished at the growth of the city and may return here later. We were glad to learn that Mr. J. W. Willard, who wintered at the Farris House two years ago, is still in good health. He may return this winter.

Mr. J. L. Hayes, who recently arrived here from Cleveland, Ohio, has purchased a five-acre tract that adjoins the city limits and will at once commence trucking on a Northern basis. He will also raise poultry and will commence with a stock of 400 chickens. We are glad to have Mr. Hayes with us. He has been for the past week looking over the territory with a view of locating here, and has, we think, found a fine little farm. Mr. Hayes is up-to-date and a worker and we shall be pleased to see him take a place in our community.

Notice—"Hazards of Helen" every Wednesday. 50-11

Comrade Holden, who resides at the corner of Sixth Street and Ohio Avenue, has proven to his friends that he can do some real hard work, despite his advancing years. A few weeks ago he started to construct a cistern on his property, and friends thought he would soon give up the job and hire some one to finish the work. But true to the determination that has always characterized this estimable comrade, Mr. Holden has completed the cistern and added the necessary piping around the roof of his home to furnish the water while we are blessed with abundant rains.

LOYAL WOMEN.

On August 3rd thirteen adult ladies met at the Christian Church and were organized into a Loyal Movement class and adopted the name "Loyal Women." Their motto is: "To Exalt the Christ Who Exalted Womanhood."

On August 11th they held their first meeting and arranged their committees and planned future work. The first work this class did was to graciously answer a call of distress from the Johnston College of Tennessee caused by the recent floods. All ladies are invited to unite with this class and will be made welcome. Press Correspondent.

LOYAL DAUGHTERS.

Among those who have entertained the Loyal Daughters class are Miss Nora Riggan, Miss Edith Harrod, and Mrs. J. L. Marsh.

The class presented Mrs. Marsh with a beautiful gold bonbon dish as a wedding present.

Tomorrow (Friday) the Loyal Women's class and Loyal Daughters will unite in a business meeting and picnic at the home of Mrs. Bullard at the lake front. Each member is requested to bring something for the menu.

A good social time is expected, which strengthens fellowship, and each member should be present and add their share to the occasion. Press Correspondent.

REV. AND MRS. NORTHROP RETURN HOME SEPT. 5TH

Writing from West Barre, N. Y., dated August 10th, to Mr. and Mrs. Frank E. Philpott of this city, Rev. G. H. Northrop has the following to say:

"Just one month ago today we left St. Cloud and we have visited in five different towns and had a fine time. We are resting and eating of the good things of the land. Have had plenty of cherries, red raspberries, currants, gooseberries, and now are having apple pie and apple sauce. It is a great fruit section through here, but apples are not as good a crop as last year, they say. Pears are plentiful, but not ripe yet. There will be late grapes, but too late for us to enjoy, I guess. We cannot expect to get everything, though."

This is a fine farming section. The land is good, rolling, but not hilly enough to more than give good drainage. I would like to own a good farm here, but I would not like to stay up here winters in the cold and snow.

It is very dry here now and we have seen but two little showers since leaving home. The farmers are having a fine time to get in their wheat and oats, but they are crying for rain for other crops.

Saturday we will go from here to Medina, and about middle of next week to Middleport, N. Y., where Cousin Clark Northrop lives, who visited us at St. Cloud last winter. About the 21st we shall go on to Chautauque County, and turn back home about September 5th.

We wish they would get a good hard road to "Kissy" before our return. We find such fine roads up here built by the State, and here they have to make a good foundation on account of freezing. So they put in a good grounding of crushed rock first and then cement on top of that. There are brick roads in the towns. We are going to have good roads all over Florida before long. We miss the bathing here, but aside from that are doing fine.

TEACHERS' EXAMINATION.

The County Uniform Teachers' Examination will be held at the Court House, Kissimmee, Fla., beginning at 8 o'clock A. M., September 5th, 1916. All those desiring to take the examination will bring pens, ink, cap paper and certificate of good moral character signed by two persons.

C. E. Yowell, Superintendent Public Instruction. 51-31

EPWORTH LEAGUE.

The Epworth League of the M. E. Church has been making wonderful progress during the past year. The young people seem to be wakening up to the fact that much good can be derived from the meetings. They have been trying to improve and make each meeting more interesting than the last.

Last Thursday evening the usual monthly social was held in the park on Ohio Avenue. The park was lighted by means of lanterns hung from tree to tree. Many out-of-door games were enjoyed by all.

It is said to be the most successful social ever held by the Epworth League. Popcorn and punch were served about 10:30.

The next social will be of a literary nature held at the Peckham home on

ST. CLOUD CITY COUNCIL

Regular Session August 14

Council met in regular session with J. I. Cummings presiding and O. L. Buckmaster, L. W. Farris, D. H. Gill and F. B. Kenney present.

Minutes of last meeting read and approved, as was minutes of special meeting of July 15th.

Report of Tax Collector Gill, Treasurer Cummings and Clerk Kenney presented and read.

Moved Farris seconded Buckmaster, that above reports be accepted and placed on file. All, yea.

Following resolution presented and read: WHEREAS, the death of Ex-Mayor W. H. Smith, who died on July 11th, 1916, in Meadville, Pa., was one of our public spirited citizens and at one time filled one of the important offices of our city—that of Mayor, therefore be it

RESOLVED by the Council of the City of St. Cloud, that we deplore the loss of as capable and efficient officer as he was, and extend to his widow and relatives our heartfelt sympathy.

Moved Farris, seconded Kenney, that the above resolution be adopted and a page of the minute book be set aside for same. All, yea.

Moved Kenney, seconded Farris, that the city authorize the publication of folders containing information for voters concerning the bond issue soon to be voted upon. All, yea.

Moved Farris, seconded Gill, that engineer's profile for sidewalk on east side of Massachusetts Avenue from 9th to 7th Streets be accepted.

Buckmaster, yea; Cummings, yea; Farris, yea; Gill, yea; Kenney, yea.

Moved Buckmaster, seconded Gill, that the City Clerk be authorized to advertise for bids for printing revised ordinances of St. Cloud in accordance with specifications to be furnished by City Attorneys.

Buckmaster, yea; Cummings, yea;

the lake front. Since there is no literary club of any kind in St. Cloud, it was thought best to have the socials of such a nature that both profit and fun could be gained at the same time.

Piano, vocal and violin music, recitations, reading, debates and biographies will be rendered by members of the league.

Again we invite all those interested in Epworth League work to come August 25th. Help us and be helped by us. x x x

MINUTES OF THE VETERANS' ASSOCIATION

Meeting held in G. A. R. Hall, August 12th, 1916, called to order by President W. F. Kenney.

Song, "America," by the choir.

Prayer by W. F. Kenney.

Song, "Old Kentucky Home," by the choir.

Recommended by Rev. Beauchamp to encourage the children to take part in the program.

Remarks by Comrade Meek about his Northern trip.

Minutes of last meeting read and approved.

Collection—\$1.01.

Song, "Glory Hallelujah," by the choir.

The social hour was then commenced, conducted by Master Lee Harrod, and a good program was rendered.

Song by two little girls, "A Garland of Old-Fashioned Roses."

Song by two young girls.

Reading by Mrs. Carrie Williams.

Song, "Just Before the Battle, Mother," by the choir.

Music by Mrs. W. J. O'Brien.

Reading by Mrs. E. E. Williams.

Violin solo by Floyd and Paul Northrop, accompanied on piano by Miss Edith Harrod. They responded to an encore with another solo.

A collection was then taken to pay Miss Edith Harrod in part for her kindness in playing the piano at our associations, the collection amounting to \$5.50.

Music by Miss Edith Harrod on piano, responding to an encore.

Song by Lee Harrod, accompanied by Miss Edith Harrod on piano. Encored, singing by request, "Has Anybody Seen Rover?"

Association closed by singing, standing, "The Star Spangled Banner."

H. H. Mason, Second Assistant Secretary.

Monday night a jolly crowd enjoyed the cool waters of East Lake Tohopekaliga with a bountiful repast on the Decker dock as a chaser.

Among those present were Mr. and Mrs. W. B. Harris and daughter, Mr. and Mrs. Winn and daughters, Mrs. Dale, Miss Ouida Mallory of Kissimmee, Mr. James Booth, Mr. Lee Hedrick, Mr. Ed Hedrick and Mr. and Mrs. Earl Schofield of St. Cloud.

Farris, yea; Gill, yea; Kenney, yea. Moved Gill, seconded Buckmaster, that the Superintendent of Streets let contract for clearing Lots 12, 17, 18, Block 278, and Lots 1, 2 and 3, Block 304, to A. McGill, if his bid is satisfactory. All, yea.

Moved Buckmaster, seconded Kenney, that the following bills be allowed:

Crawford and Jarrell, July re-tainer \$ 25.00

O. L. Buckmaster, July salary... 10.00

J. I. Cummings, July salary... 16.66

D. H. Gill, July salary..... 60.00

Wm. Burcher, July salary..... 8.33

L. W. Farris, July salary..... 50.00

John Fleming, July salary..... 45.00

Kinzie Parlin, July salary..... 45.00

Wm. Montsdeoca, July salary 70.00

F. B. Kenney, July salary and supplies 71.35

Geo. Clark, acct. Park contract 12.00

M. W. Lawton, feed..... 18.45

M. E. Rigan, feed..... 2.10

Kissimmee Tel. Co., phone rent 4.00

Edd George, repairs..... 6.50

M. Nourse, sidewalk..... 194.96

St. Cloud Pub. Util. Co., lights 21.87

W. A. Ginn, engineering con-tract 125.00

St. Cloud Tribune, publishing. 119.45

Maeh Brothers' Garage, repairs 9.18

T. A. Horn, hay..... 25.44

Henry Benton, cleaning lots.. 7.60

Chas. H. Sapp, cleaning lots.. 18.60

Ernest Vockrodt, cleaning lots 18.60

J. W. Embry, sanitary work.. 1.00

Roll call: Buckmaster, yea; Cum-ings, yea; Farris, yea; Gill, yea; Kenney, yea.

Moved Gill, seconded Buckmaster, to recess to August 18th at 9:00 A. M. All, yea.

J. I. CUMMINGS,

President of the Council Pro tem.

Attest: Fred B. Kenney, City Clerk.

PRESBYTERIAN CHURCH.

In the Presbyterian Church on Sabbath, August 20th, the theme for the morning sermon will be "Beautiful Hands." The evening theme will be "A Friend at the Door." You are cordially invited to attend these services. Silas Cooke.

RESOLUTION.

Whereas, The death of Ex-Mayor W. H. Smith, who died July 11, 1916, in Meadville, Pa., was one of our public spirited citizens and at one time filled one of the important offices of our city—that of Mayor—therefore be it

Resolved, By the Council of the City of Saint Cloud, that we deplore the loss of as capable a citizen and efficient an officer as he was, and extend to his widow and relatives our heartfelt sympathy.

A CARD OF THANKS.

The family of Mrs. M. Burke extend to all the friends their appreciation of assistance rendered during the illness and death of mother.

Burke Family.

THIS WEEK'S PROGRAM AT THE PALM THEATRE

THURSDAY, August 17. — Benefit show for the Young Men's class of the M. E. Church. See the boys and buy your tickets. "The Selig Tribune." "The Yaqui Cur," 2-reel picture. Moral—"Greater love hath no man than he who lays down his life for a friend." "Ham and Bub" comedy.

FRIDAY, August 18. — "Our People," featuring Bryant Washburn and Gertrude Glover in a very pleasing 3-reel drama. "Pickles and Diamonds," 1-reel comedy.

SATURDAY, August 19. — Little Joice Fair in "Orphan Joice," a picture you cannot afford to miss. Plump and Runt in "Sea Dogs," comedy, and "Crooked Trails," a thrilling western drama.

MONDAY, August 21. — A Knickerbocker Star featuring Harry King in "The Stained Pearl," the action is fast and the story interesting. Sis Hopkins in "Juggling Justice."

TUESDAY, August 22. — Harry Morey in "A Strange Case," 3-reel detective drama full of interest, and a split-reel comedy, "Master Jefferson Green and 'Hicksville's Finest'."

WEDNESDAY, August 23. — Nell Craig and Darwin Carr in "Fool's Gold," a splendid 3-reel drama. "The Treasure Train," another of those "Hazards of Helen" pictures, in which the star risks her neck in one of her daring feats.

TIME TO PLANT FLOWERS.

The Tribune Here Presents to Its
Many Readers the Time to
Plant Flowers.

The time to plant flowers seems to be the cause of much annoyance to those that are not familiar with our climate, and for that reason The Tribune prints the following, which has been prepared and distributed by the St. Augustine Chamber of Commerce, and should prove helpful to all lovers of flowers, and especially so to those that are from the colder climates:

Balsams, bloom in summer.
Begonias, bloom in summer.
Bachelor Buttons, plant in February and bloom in spring.
Blackeye Susans, plant in September and bloom in winter.
Calla Lilies, plant in October and bloom in spring.
Calendulas, plant in October and bloom in winter.
Candytufts, plant in February and bloom in spring.
Carnation Pinks, plant in November, bloom in winter.
Clerodendrons, plant in November, bloom in spring.
Clematis (speciosa), plant any time, blooms February, March, April, Canas.
Coronopsis, plant in February and bloom in spring.
Cosmos, plant in February and bloom in spring.
Marguerite Carnations, plant in October, bloom in winter.
Chrysanthemums, plant now, bloom in fall.
Daffodils, plant in October, bloom in February.
Dahlias, plant in June, bloom in the fall.
Easter Lilies, plant in October, bloom in spring.
English Daisies, plant in September, bloom in winter.
Four O'Clocks, plant now.
Freesias, plant in October, bloom in spring.
Geranium, red, plant now.
Golden Trumpet, plant in October, bloom in spring.
Grand Duke Jessamine, plant now.
Grass Petals, plant in September, bloom in winter.
Heliotrope, bloom in summer.
Hyacinth, plant in October, bloom in January.
Ivy Vine, plant any time.
Lantanas, bloom in summer.
Lilies, any time.
Moon Flower Vine, plant now, bloom in winter.

Mignonette, plant in September, bloom until spring.
Narcissus, plant in October, bloom in December.
Nasturtiums, bloom winter and spring.
Pansies, plant in September, bloom in winter.
Petunia, plant in September and bloom in winter.
Phlox, plant in October, bloom in winter.
Poppies, plant in September, bloom in winter.
Portulacas, bloom in summer.
Red Tiger Lilies, plant in October, bloom in spring.
Rose de Montana or Coral Vine, climbing, pink flower, exceptionally pretty, plant in summer and spring, bloom from June through winter.
Salvia, bloom in winter.
Seven Sisters, bloom from June on.
Snap Dragon, plant in September, bloom in winter.
Sweet Alyssum, plant in February, bloom in spring.
Sweet peas, plant in September, bloom in winter.
Sweet William, plant in February, bloom in spring.
Verbena, plant in October, bloom in winter.
Von Sion, plant in October, bloom in spring.
Violet, plant in June, bloom in fall.
Zinnias, bloom in summer.

BAMBOO MAY BE PLANTED
DURING RAINY SEASON

The best time to plant bamboo is during the rainy season. The large clumps may be divided and the cuttings used to form new clumps. Each cane that an eye will grow. F. F. Halma, Assistant Horticulturist to the University of Florida Experiment Station, recommends that the new plants be set in moist soil and given an application of good stable manure. The canes should be cut off a foot above the ground before they are set. In addition to bamboo, arbor vitae, palms and other ornamental plants may be set during the rainy season. They will not need so much care then because they will have plenty of water and conditions will be favorable for rapid growth.

HAD NO GIFT FOR IT.

"Did yez say yer health is bad, Mr. Donovan?"
"Yis, O'fve bin walkin' in me slape."
"Och, begorra, if Oi cu'd only have done that same, Oi wouldn't be off the force now."

THE TICK IS A MENACE
TO OUR PROSPERITY

The cattle tick is the greatest drawback to success in stock raising in Florida. Men who allow ticks to prey upon their cattle are not only acting inhumanely, but to their financial loss, as the feeding of nutritious foods—meat and milk—to ticks is most unprofitable. Experiments have demonstrated this repeatedly. There is no doubt about it. This is what Dr. Cooper Currier, one of the United States Department of Agriculture's scientists, who has spent years in the study of the tick, says about it:

"The host of the tick is the cow or steer. It cannot remain on the skin of horses or mules. They sweat and shed it off. But horned stock do not perspire. After feeding upon a cow or steer the fully engorged tick falls to the ground where it can deposit its eggs. In warm weather the eggs hatch and for each healthy egg there is one small seed tick. Now when you consider that one poor afflicted cow may have thousands of ticks on her body at a time, each one capable of laying 5,000 eggs, it must be conceded that the species increase with great rapidity. One generation of a thousand will, in about three weeks, increase to five millions, and if there are cows they will climb aboard from the spears of grass and after getting a comfortable place, where the hide is not too thick, parasite-like, they will commence feeding on the cow's precious blood that is manufactured from grass, or corn, or silage—all of

which represents money to every owner. Approximately every six weeks a new generation of ticks is produced."

Tennessee is one State where the tick has been eradicated by united effort. That State's slogan was, "It is more of a disgrace than a pity to own tick infected cattle." When it finished the work of wiping out the pest it adopted the motto: "Teetotally Tickless Tennessee," and cattle raising is now on a profitable and substantial basis.

From experiments made by the bandry in Florida it was demonstrated that the milk flow from tick-infected cows was 42 per cent less than from cows free from ticks. The tick-infected cow is always thin in flesh. The average value of Florida cattle is less than one-third the value of cattle north of the Ohio river.

The time is here when more and better cattle must be raised in Florida and the South. The boll weevil has invaded the cotton fields of the State and the yield is being reduced. The remedy to stop the damage of the boll weevil is not known. The remedy to stop the citrus canker is fire—the destruction of the tree. We know how to destroy the cattle tick. It is a visible thing. It has been eradicated elsewhere with great profit to owners and comfort to animals. It must be wiped out in Florida. It is possible when our people unite for that purpose.

DAIRYING IN WINTER TIME PAYS

Significant Facts Revealed by Records
of Cow-Testing Association in
Northwestern States.

When asked why they preferred to have all their cows freshen in the spring, a number of farmers in a Northwestern State said positively that winter dairying did not pay in that section. The agent of the cow-testing association, therefore, investigated a number of farms to determine whether it was the best practice in that region to have cows freshen in the spring because there is then plenty of grass and "grass is a cheap feed."

He found that the spring-freshened cows gave milk for a time while the pasture was good, but as hot weather and flies came on, the flow gradually decreased until by fall they usually were dry. As the owners thought it did not pay to feed a dry cow, the cows were allowed to browse around all the fall, picking up what feed they could, and in many cases they were forced to "rustle" around the straw pile all winter. As a result, in the spring many cows emerged with ribs showing and were considerably weakened by the time they freshened. They therefore good a poor start in the season, and in many cases their milk records the following year were still lower. It was not surprising, the agent points out, that the average cow, so mishandled, could produce only about 150 pounds of butter fat a year.

Many so-called scrub cows, the agent points out, if freshened in the fall and given the right kind of feed and treatment during the winter before coming on grass for the latter part of their lactation period would seem to be supported fully by the records of the cow-testing association in the same general locality. These records show that the average farm cow that freshens in the fall not only produces more milk and fat, but also is more profitable to keep. In one county many cows which freshened in the fall won a place on the association's honor list for January and continued to produce heavily during the winter. When grass came in the spring these same cows picked up in their naturally waning milk flow and finished up with a good yearly production before going dry late in summer.

What is still more important, however, from the profit point of view, is that the fall-freshened cows produced the larger part of their records when milk prices were best. With the common idea that "grass is a cheap feed," therefore, this agent would couple the fact that "butter fat is usually cheap at the same time."

The highest January record of this association was made by a cow which produced 1,750 pounds of milk, or approximately 200 gallons, 3.7 per cent test or 64 pounds of butter fat. Her milk, however, was sold on a city milk route and brought 20 cents a gal-

lon, or approximately \$40 for the month. On the other hand, if the owner had sold his product on a butter-fat basis he still would have received \$10.20. As it cost him \$5.37 to feed the cow, his profit on a butter-fat basis would have been \$13.83.

On this farm the cows get practically all the alfalfa hay and corn silage that they will eat up clean, and in addition a grain mixture of equal parts of rolled oats, bran and shorts. Each of the heavier producers gets about ten pounds of this mixture daily. In addition to being well fed, the cows comfortably sheltered in a warm barn most of the time and have access to plenty of good water.

During the month six cows in this herd averaged 54.8 pounds of butterfat, worth more than \$16, while the feed cost was approximately \$5.37 apiece. The records kept by the cow tester gave the dairyman exact knowledge of the cost of feed and production in the case of each animal, and thus enabled him to cull out "boarders" and regulate his feed in proportion to the milk production of each cow. The association record for the farmer, however, seemed to establish the fact that, in the region mentioned, winter dairying can be made to pay.

A BLOOD RED MAP.

Some time ago the Bureau of Animal Industry of the United States Department of Agriculture sent out a map to the South, showing the progress of tick eradication. Tick-free areas were in white and tick-infected were red. At that time Florida was the only totally red State on the map. Across the top was the legend, "Make a white spot on this map." A white spot has been made on the map. Concerning the tick-free area in Florida, Dr. C. F. Dawson, State Veterinarian, says about 4,000 square miles in Southeastern Florida, including Dade, Broward, and parts of Palm Beach counties, are free from the dangerous pest, and he warns that section of the danger of re-infection by the existence of ticks in neighboring counties. It is necessary to clean up all of Florida and keep it clean and by showing white it will invite settlement, investment and prosperity.

The raising of cattle is one of the greatest industries of Florida. It can be made vastly more profitable by eradicating the cattle tick. The increased weight of cattle alone will pay for all the time and money spent. The increased flow and better quality of milk, without any other factor, will justify the undertaking. The better quality of hides, free from notes, not to speak of the comfort of the animal, relieved of itching and sores, will justify all the cost. It is a sensibly economic and humane proposition. Florida must join with other States and line up for a greater prosperity. When Florida eradicates the cattle

tick and controls hog cholera it will become one of the richest and most prosperous States in the Union. A campaign for this purpose is now on in this State and it should be continued to full success. The work cannot be carried out in a half-hearted way. These enemies of a great industry are most persistent. There are no obstacles to tick eradication except skepticism. Many of our people do not see the need of eradication. We must educate—knowledge is power. Doubt is a great detriment to success:

"Doubt thou the stars are fire,
Doubt that the sun doth move;
Doubt truth to be a liar,
Doubt not what you can prove."

DEMONSTRATION AGENTS
BOOST CORN YIELD

Do you know what the corn yield for Florida was nine years ago? It averaged nine bushels to the acre, according to estimates by the United States Department of Agriculture. Do you know what it was last year? The average was a little over 15 bushels to the acre. Now if that average grows as much in the next nine years as it has in the last, Florida will be among the States which make the highest yields.

Twenty or twenty-five bushels may seem too much to expect, but the same methods which produced the increase from 9 to 15 will boost the average to 20 or more. According to C. K. McQuarrie, State Agent for the University of Florida Extension Division, farmers are practicing better methods because of the influence of the county agents. They are demanding more information. They see that demonstration methods are making them money and they will go on until they have mastered their problems.

There has been improvement in other crops also. General farm conditions have kept pace with the crops. Livestock has been stressed and the work of agents is just beginning to show. In some counties the increase in the number of hogs has been from 100 to 300 per cent. Along with the livestock increase has come the construction of dipping vats and silos.

MAKES FORTUNE AT HOME.

Farmer Boy Develops Fancy Stock.

Frank M. Jones of Oneida County, New York, a farmer boy, has become very wealthy through developing his hobby that fancy stock pays better than ordinary cattle. His father was a farmer of the old school, who thought that cows were cows, and only after a bitter struggle was persuaded to sell his herd. For the price of thirty cows young Jones purchased two young heifers of excellent lineage and fed and groomed them with his own hands until they reached maturity. One of the two had a calf that was christened Pontiac Lass. When Pontiac Lass first began to yield milk it was plain that she was an extraordinary animal. Finally Jones asked a group of dairy experts to look her over. The result was three world's records for milk and butter. Frank Jones now has 140 animals, valued at considerably more than \$250,000, but Pontiac Lass still holds the championship. His cows are bovine aristocrats. Their lives are heavily insured, and at the first sign of illness a veterinarian hastens to attend them. His experience is a practical demonstration of the most up-to-date dairying methods and the profits to be won from fancy stock raising. It is particularly striking when we remember that the total initial capital for the venture was not more than \$1,400.

WHAT TO PLANT DURING
THE MONTH OF AGUST

Information from the Agricultural Department of Florida states that the following seeds may be planted in the vicinity of St. Cloud and south of this point during this month:

Beans (snap), Cabbage seed, Cantaloupes, Carrots, Cauliflower seed, Collards, Cowpeas, Cucumbers, Eggplant, English Peas, Irish Potatoes, Kale, Kohlrabi, Lettuce, Mustard, Onions, Peppers, Pumpkins, Radishes, Rape, Rutabagas, Spinach, Squash, Swiss Chard, Tomatoes, Turnips, Windsor Beans.

A hay barn will help make better hay. The protection which it will give to your hay is worth from \$5 to \$10 a ton. Stacking is not very successful during the rainy season and a few rains may make the hay worthless.

TRADE MARK REGISTERED
PHOSLIME
FOR
NATAL HAY

"That this Phoslime finely ground and applied to the soil will yield to the plant exactly as much phosphoric acid as needed, and that the balance which is actually soluble in solid water, will remain in the soil, permanently enriching it for the succeeding crops, which assertion has been fully verified by the different agriculture stations which have tried it."

Florida's Fruit Groves Threatened
Protect Yours by Spraying Now

Rust mite and white fly are unusually prevalent in groves at this time. Get rid of these pests right away. Delay means loss.

The merits of Niagara Soluble Sulphur Compound for rust mite are well known. Schnarr's Insecticide is the guaranteed standard for white fly.

Grove owners who grow and market clean, bright, well rounded fruit have used these two insecticides for many years.

FILIPINO FREEDOM PUT OFF

Conferees Reject Amendment Giving Independence in Four Years

The Philippine Government extension bill, shorn of the Clark amendment which would have provided for freedom of the islands within four years, was reported to the Senate from conference August 7th.

The conference virtually restored the language of the House bill, which affirmed the purpose of the United States to withdraw from the Philippines whenever a stable government has been established. It is expected that it will be accepted by both houses in that form.

HOUSEKEEPING VOTERS.

The theory that suffrage for women will cause the housewife to drop her dish-pan and mop and desert the kitchen for the stump is a fallacy, according to Senator Shafroth of Colorado. The State has had equal suffrage for twenty-three years and, therefore, Senator Shafroth is recognized in many quarters as an authority on votes for women.

Divorces due to woman suffrage in Colorado are as rare as orchids in the Sahara, according to Senator Shafroth. In a statement to the Washington Herald, he said:

"Woman suffrage has not caused the neglect by women of their home duties. It has not been the cause for domestic dissension or divorces. Judge Allen of the Colorado district declares that in twenty years on the bench he has never known of a divorce case wherein it was claimed that political differences had been the cause of trouble between husband and wife.

"Equal suffrage in Colorado has caused no tendency in men to omit the politeness and gallantry to women which she always has commanded. Equal suffrage has not lowered the ideals of woman."

KING SENDS LETTER TO CAPTAIN'S WIDOW

King George of England has sent a letter of sympathy to the widow of Captain Charles Fryatt, master of the British steamship Brussels, who was put to death recently by the Germans on a charge that he tried to ram a German submarine when he was master of the steamship Wrexham, says the New York Herald.

In his letter King George says: "The action of Captain Fryatt in defending his ship (the Wrexham) was a noble instance of the resource and self-sacrifice characteristic of his profession." The letter adds that the King has learned with the deepest in-

dignation of Captain Fryatt's fate and that the King "regards the outrage with abhorrence."

PHYSICAL CULTURE IN PRISON

A group of thirty prisoners at Sing Sing have been trained by the physical department of the West Side Y. M. C. A. of New York to act as teachers of physical culture to their fellow convicts. Great benefit is expected from this work, says The Outlook, for men who have abundant physical exercise of a wholesome kind are far less likely to become vicious, sullen or desperate, than if they are required to sit inactive in their cells.

DEALT AGAIN.

A number of British recruits at Sandhurst thought they would have a little fun with the drill sergeant, says the Boston Transcript. They made their plan and on the following morning when the sergeant gave the order, "Number off from the right," they did so in this manner: "One, two, three, four, five, six, seven, eight, nine, ten, eleven, queen, king."

Quick as a flash the sergeant came back, "All court cards fall out and report to the major."

TRENCH SONG WINS PRIZE.

A song written in the trenches, during a bombardment, by Lance Corporal Calder of the London Scottish, who was wounded at Loos, has won the prize in the open competition of the Stratford Musical Festival. The prize competition is a setting of "O! How Sleep the Brave."

GIVES ETHER WITH MUSIC.

Believing that he lessens nerve shocks, a Pennsylvania surgeon has a phonograph played as he operates, patients hearing music as they become unconscious and again as consciousness returns.

PROCLAMATION

CALLED FOR APPROVAL OF FRANCHISE OF THE CENTRAL FLORIDA INTERURBAN RAILWAY COMPANY.

Whereas the Council of the City of St. Cloud, Florida, at a session held July 31st, 1916, passed an ordinance which has been approved by the Mayor granting to the Central Florida Interurban Railway Company certain franchise rights for use of the streets of St. Cloud for a street railroad and for wharves and docks; said ordinance being subject to ratification by majority of the qualified electors of said City of St. Cloud, Florida, and

Whereas by proclamation of the Mayor dated July 14th, 1916, a special election has been called for the purpose of submitting to the free holders of St. Cloud otherwise qualified to vote the approval or rejection of the issuance of bonds of said city for purposes specified in said proclamation, the said election being called for

September 5th, 1916.

NOW, THEREFORE, I, J. I. Cummings, Acting Mayor of the City of St. Cloud, Florida, under and by the authority vested in me by Chapter 7237 of the Laws of Florida, approved June 1, 1915, and the ordinance of the City of St. Cloud, Florida, passed July 31st, 1916, do hereby order that at the said special election hereinafter called to be held on

September 5th, 1916,

there shall be submitted for the approval or rejection of those voting in said special election the said franchise ordinance passed July 31st, 1916, and which said ordinance is now being published in full in the St. Cloud Tribune.

IN WITNESS WHEREOF I have hereunto set my hand and caused to be affixed hereto the corporate seal of the City of St. Cloud, Florida, this 2nd day of August, 1916.

J. I. CUMMINGS, Mayor.

Attest: Fred B. Kenney, City Clerk. 49-51

PROCLAMATION

CALLING FOR ELECTION FOR BONDING THE CITY, TUESDAY, SEPTEMBER 5, 1916.

WHEREAS the Council of the City of St. Cloud, Florida, at its regular session held July 10th, 1916, passed an Ordinance which has been approved by the Mayor, authorizing the Mayor to call a special election for the City of St. Cloud, to be held for the purpose of submitting to the electors of said City for approval or rejection the issuance of bonds of the City of St. Cloud, Florida, in the aggregate sum of One Hundred and Fourteen Thousand Dollars to be issued for the purposes hereinafter specified.

NOW, THEREFORE, I, J. I. Cummings, Acting Mayor of the City of St. Cloud, Florida, under and by the authority vested in me by Chapter 7237 of the Laws of Florida, approved June 1, 1915, and the Ordinance of the City of St. Cloud, Florida, passed July 10th, 1916, do hereby call a special election for the City of St. Cloud, Florida, to be held

TUESDAY, SEPTEMBER 5TH, 1916,

for the purpose of submitting to the electors of said City for approval or rejection the issuance of bonds of said City of St. Cloud, in the following amounts and for the following purposes:

- (1) \$72,000.00 for the construction of a complete water works plant and system.
 - (2) \$21,000.00 for sanitary sewer and sewer disposal plant.
 - (3) \$15,000.00 for the grading, paving, draining and curbing of the following streets:
 - (a) New York Avenue, forty feet wide from the South side of the Atlantic Coast Line Railroad South to the South side of Eleventh Street.
 - (b) Pennsylvania Avenue, forty feet wide from the South side of the Atlantic Coast Line Railroad South to the South side of Eleventh Street.
 - (c) Tenth Street twenty-six feet wide from the West side of Massachusetts Avenue to the East side of Florida Avenue.
 - (d) Eleventh Street, twenty-six feet wide from the west side of Massachusetts Avenue to the East side of Florida Avenue.
 - (4) \$4,000.00 for refunding outstanding notes.
 - (5) \$2,000.00 for sinking fund.
- Only resident electors otherwise

LEGAL ADVERTISEMENTS

qualified, who shall also own real estate within the corporate limits, and who shall have paid taxes thereon for the year when taxes were last due shall be entitled to vote in said election.

For the purpose of holding said election I hereby appoint the following Inspectors:

John Anderson,
J. B. Harris,
Lynn Daugherty.

At the election herein provided for there shall be elected three bond trustees whose duty shall be to negotiate all bonds issued under this act, to keep safely the moneys arising from the sale thereof, and to pay them out on city warrants issued for the purposes aforesaid, and designate the fund on which they are drawn. The candidate for bond trustee receiving the highest number of votes cast shall serve until his successor is chosen and qualified at the regular city election in 1919, and thereafter his successor shall serve for a term of three years. The candidate for bond trustee receiving the second highest number of votes cast shall serve until his successor is chosen and qualified at the regular city election in 1917, and thereafter his successor shall serve for a term of three years. Parties desiring to become candidates for trustee may qualify as such candidates in the manner now provided for candidates for city offices of the said City of St. Cloud.

IN WITNESS WHEREOF, I have hereunto set my hand and caused to be affixed hereto the corporate seal of the City of St. Cloud, Florida, this 14th day of July, A. D. 1916.

J. I. CUMMINGS,

Acting Mayor of the City of St. Cloud.

Attest: FRED B. KENNEY,

City Clerk. 47-51

FRANCHISE ORDINANCE

Granting certain rights, franchises and privileges to the Central Florida Interurban Railway Company, a Florida Corporation, relating to the construction and operation of a railroad upon the Streets of St. Cloud and wharves rights connected therewith.

Be it Ordained by the City Council of the City of St. Cloud, Osceola County, Florida:

Section 1. The City of St. Cloud, a Florida Municipal Corporation, hereby grants unto the Central Florida Interurban Railway Company, a Florida corporation for profit, having its principal office and place of business in the City of St. Cloud, Florida, and to the successors and assigns of said Corporation the exclusive right, privilege and franchise of establishing, building, constructing, maintaining, operating and conducting a railroad to be operated by any motive power other than steam; and to be operated in or through the said City of St. Cloud and upon, along, through and across the streets and avenues of said City of St. Cloud, described as follows:

From the southern terminus of Michigan Avenue north to Thirteenth Street; thence west on Thirteenth Street to Massachusetts Avenue; thence north on Massachusetts Avenue to Tenth Street; thence east on Tenth Street to Florida Avenue; thence north on Florida Avenue to Cypress Avenue; thence west on Cypress Avenue to the City limits. Also on Florida Avenue from Thirteenth Street north to Tenth Street.

Section 2. The said City of St. Cloud hereby grants unto the said Central Florida Interurban Railway Company and to its successors and assigns, the exclusive right, privilege, concession and franchise of building, constructing, establishing, maintaining, operating and conducting a dock and wharf along and upon the shores of Lake East Tohopekaliga, and into the waters thereof, and upon the banks of said Lake, and upon the uplands adjoining thereto at any point between Florida Avenue and Pennsylvania Avenue north of the Lake Front Boulevard. The franchise contained in this section does not authorize the taking of private property of individuals, without due process of law.

Section 3. The said City of St. Cloud hereby grants unto the said Central Florida Interurban Railway Company, and to its successors and assigns, the exclusive right, privilege, concession and franchise, of establishing, building, constructing, maintaining, operating and conducting a railroad on Florida Avenue, running from Cypress Avenue to the aforesaid dock and wharf, and on Pennsylvania Avenue running from the aforesaid dock and wharf to Cypress Avenue.

LEGAL ADVERTISEMENTS

Section 4. The localities, streets and limits named are as constituted, laid off and existing at the time of the adoption of this Ordinance by the City Council.

Section 5. The term for which this franchise is granted is limited to Thirty years, and the City of St. Cloud, as a condition precedent of the taking effect of this grant, reserves the right to purchase, at or after the expiration of such term, that part of the said railroad within the limits of the City of St. Cloud, and also to purchase such other property used under or in connection with this franchise or right, or such part or such property as the Municipality may desire to purchase, at a valuation of the property, real and personal, which valuation shall be fixed by arbitration as may be provided by law. And the Grantee of this franchise, by its acceptance hereof, gives and grants to the Municipality, the right mentioned in this section.

Section 6. The Grantee herein named, its successors or assigns, shall construct and place in operation within two years from the time that this Ordinance shall be ratified by election, that portion of its railroad running from the City of Melbourne, Brevard County, Florida, to the City of St. Cloud, Osceola County, Florida. If the said Grantee, its successors or assigns, shall fail to construct and place in operation the said portion of its road within the said time, the City Council of the City of St. Cloud may declare this franchise null and void, and upon such declaration, the rights of the Grantee, its successors and assigns, acquired hereunder shall forthwith wholly cease and determine. If, however, before such declaration of forfeiture, but after the limit of time herein mentioned, the said Grantee, its successors, or assigns, shall comply with the condition mentioned in this section, the said franchise shall remain in full force and virtue as though no breach thereof had occurred.

Section 7. After the said railroad shall have been first constructed and placed in operation within the limits of the City of St. Cloud, under the terms of this franchise, it shall be the duty of the said Company, its successors and assigns, to continue the same in operation; and if the said Company shall cease to operate the same for a period of thirty days at any one time, the City Council of the City of St. Cloud shall be authorized to declare a forfeiture of this franchise and thereupon all rights of the Grantee and its successors and assigns hereunder shall cease and determine. Where strikes or other unavoidable causes result in a cessation of operation, such cessation of operation shall not be held to be the cause of a forfeiture hereunder, so long as the said strikes or other unavoidable causes continue to operate; nor shall the time of failure of the said Company, its successors and assigns, to operate the said railroad during such time as the said strikes or other unavoidable causes shall continue be regarded as a part of the period of thirty days provided for by this section.

Section 8. In case any forfeiture of this Franchise shall be declared under the terms hereof, the Company shall be allowed the space of sixty days from the date of such declaration of forfeiture in which to remove its property, from the city streets and city property.

Section 9. For the purpose of providing motive power or facilities of any kind in connection with the construction, maintenance and operation of the said railroad, the said Company and its successors and assigns, is hereby empowered and duly authorized to erect and maintain upon the said streets and highways poles or posts of suitable material other than of wood, and to attach thereto wires and other appliances and to charge such wires with such currents of electricity as may be necessary or expedient for the furnishing of light, heat and motive power to the said system of railroad. And for the same purpose, the said Company, its successors and assigns, is hereby empowered and duly authorized to run such underground cables between the tracks of its railroad, or within the limits of the outer tracks on either side thereof, as may be necessary or expedient for the same ends. The rights herein given shall be subject to the regulative ordinances in force at the time said rights are exercised.

Section 10. The said Company, its successors and assigns, is hereby empowered and duly authorized to use the center of the said streets for the conduct of a single track railroad, and for the said purposes may use such portions of the said streets as may be necessary for the construction and operation thereon of such switches, crossings, turn-outs and turn-tables, as in its discretion is deemed proper,

LEGAL ADVERTISEMENTS

subject to the approval of the City Council.

Section 11. The track or tracks to be constructed for the conduct and operation of said railroad shall be of standard gauge.

Section 12. The railroad as constructed shall conform to the grades of the streets as established at the time of such construction, and the Company, its successors and assigns, shall at all times keep and maintain the space between the rails and the space of two feet on the outer side of each rail, in as good condition as the remainder of the street, whereon said rails are laid, is kept and maintained. Should any of the streets embraced in this franchise be paved by the City with brick, sand oil, or other permanent material, the said Company, its successors and assigns, shall be liable for the whole cost of the paving of such portion of the street or streets as shall be embraced within the outer rails thereon, and a space of two feet on the outside of such outer rails.

Section 13. In the event that the City shall fill in or bulkhead any of the waterfront property used by the Company and included in this franchise, the Company, its successors and assigns, shall be liable for the whole cost of such filling in and bulkheading.

Section 14. The grant of the right and franchise to construct a dock, pier or wharf, as contained in Section Two of this Ordinance, shall include the right and privilege and authority of the said Company, its successors and assigns, to use the same exclusively in any reasonable way as a facility for the conduct and operation of the said railroad and its connections.

Section 15. This franchise includes the right to lay tracks, erect poles, run wires, cables, pipes, mains and meters, build switches and switch appliances, and affix to the thoroughfares and highways of the streets mentioned in this franchise, such fixtures and appliances as may be necessary for the conduct of the railroad provided for herein. And the said Company, its successors and assigns, may maintain, occupy and use upon the property designated in this franchise and the streets therein mentioned, such equipment, accessories, services, electric current and other property and appliances as shall be necessary or expedient in the conduct of said business.

Section 16. The maximum passenger rate to be charged on said railroad for a continuous passage from one point within the limits of said city to any other point within said limits, shall be five cents (5c).

Section 17. All members of the city police force and city fire department in uniform or wearing an official badge and on duty shall be furnished free transportation upon said railroad within the city limits of St. Cloud.

Section 18. This Ordinance upon its passage and approval by the City Council shall be submitted to the voters of the City of St. Cloud for ratification and approval, and the said City shall not be bound by the terms hereof, nor shall this franchise take effect as a contract between the City and the said corporation, its successors and assigns, until after the approval of this Ordinance by a majority of the said voters actually voting at the municipal election hereinafter referred to.

Section 19. The said Company shall indicate its acceptance of the terms of this franchise by an instrument in writing, executed within thirty days after this Ordinance is ratified by a majority of the voters actually voting at the municipal election hereinafter mentioned, such instrument in writing to acknowledge such acceptance and to be signed by the President of the said Company and to be under the corporate seal of the said Company, and upon such acceptance and the ratification of this Ordinance at the said election, the same shall become a binding contract between the parties hereto.

Section 20. All Ordinances, or parts of Ordinances, in conflict herewith are hereby repealed.

Section 21. This Ordinance shall be submitted to the voters of the City of St. Cloud for approval by the said voters, such submission to be made at an election to be held in the said City of St. Cloud on the 5th day of September, A. D. 1916, and this Ordinance shall take effect from the time of its approval by a majority of the said voters actually voting thereon in the said election.

Read the first and second time and by unanimous consent read the third time and passed in open session of the Council this the 31st day of July, A. D. 1916.

J. I. CUMMINGS,
President of the Council Pro tem.

Attest: Fred B. Kenney, City Clerk.

Approved this the 31st day of July, A. D. 1916.

J. I. CUMMINGS,
Acting Mayor of the City of Saint Cloud, Florida. 49-51

SQUEEZE THREE LAMPS INTO ONE

If you could combine three old fashioned carbon lamps into one, you would get only the same amount of light as you may now obtain from a single

NATIONAL MAZDA Lamp

and this clear, cheerful light burns for the cost of one carbon lamp.

It will cost but little to equip your home throughout with these lamps today.

J. A. MCCARTHY

SAND INDUSTRY AFFECTED BY EUROPEAN WAR

An increase in the quantity of glass sand used in the United States in 1915 over that in 1914 may be explained in part by the activity of the glass industry due to increased exports, a direct effect of the war in Europe. The production of glass sand in 1915 was 1,884,014 short tons, valued at \$1,606,640. This is the largest quantity ever reported by the United States Geological Survey, Department of the Interior, which has just issued its annual statistical report on sand and gravel. Some weeks ago figures were given out for the production of glass sand in the principal producing States, but the above are final figures for the entire country.

Molding sand was produced in very much greater quantity in 1915 than in 1914, owing in part at least to the foreign demand for vast supplies of machinery and munitions requiring the casting of metal, which called for the use of molding sand in large amounts. The total production of molding sand throughout the United States as reported to the Survey was 3,585,746 short tons, valued at \$2,123,203.

The report shows that the total quantity of sand and gravel produced in 1915 and reported to the Survey was 76,603,303 short tons, valued at \$23,121,617. It includes also a list of localities where glass sand was produced in 1915 and another list of localities where it occurs.

FOR SALE

Four-room house occupying two lots, for sale. This is desirable property with black soil, fully improved, with fruit trees, flowers and vines. Fine water. Good neighborhood. BOX 221, ST. CLOUD, FLA.
